## WORK EXPERIENCE

---

### Web Developer-Intern (Numeric Infosystem Pvt. Ltd.)

web dev intern -

Aug 2022 - Feb 2023

- Collaborated closely with front-end and back-end developer teams to develop and implement logic tailored to their specific requirements, ensuring smooth application functionality.
- Managed application databases efficiently, ensuring data integrity and accessibility for the development teams.
- Engineered a robust API using Express and Node.js, optimizing data retrieval from MySQL databases and resulting in a 25 percent reduction in front-end loading times and enhanced user experiences.
- Demonstrated proficiency in API integration, enhancing web application functionality, and interactivity.
- Committed to continuous learning, keeping abreast of the latest web development trends, tools, and best practices to enhance skillset and contribute effectively.

## PROJECTS

---

### Gwalior Basket

[repository link](#)

It is an e-commerce web application. I built this application in React JS, like Flipkart and other shopping platforms. It is a shopping platform, and its name is Gwalior Basket.

Technologies: React JS, Java Script, Material UI, SQL, Others and Back-end Node JS technologies.

### Study Notion

[Link to demo](#)

- Developed a Fully Functional ED-Tech Platform that enables users to create, consume, and rate educational content with proper Authentication and Authorization, resulting in a 35 percent increase in user engagement and a 15 percent decrease in bounce rate.
- Learners can rate courses and provide feedback while Instructors can see their course analytics and earnings which Facilitates a transparent and informed learning community.
- Implemented Razorpay Payment Integration Gateway for financial transactions on this Platform, enabling secure payment processing for users while purchasing courses.

Technologies: M.E.R.N. (MongoDB, Express-JS, React-JS and Node-JS).

## SKILLS

---

Languages:	HTML5, CSS3, JavaScript, TypeScript, C/C++, Redux
