Experience

EcoDigitas

Aug 2024 – Jan 2026

Frontend Developer

Hybrid

- Built complex, real-world frontend applications using React.js and TypeScript with advanced UI features like dynamic filtering, modals, pagination, and responsive layouts.
- Worked extensively with form libraries like Formik and Yup to implement robust validation, conditional fields, and dynamic form behaviors across various business modules.
- Implemented scalable state management and secure user flows using Context API, JWT-based authentication, role-based routing, and session control for multi-role dashboards.
- Integrated third-party tools like SheetJS for Excel handling and OCR APIs for auto-filling invoice data, enhancing automation and reducing manual input errors.

Numeric Infosystem Pvt. Ltd.

Aug 2022 - Feb 2023

Full Stack Developer Intern

Gwalior, Madhya Pradesh

- Developed and optimised RESTful APIs, enhanced MongoDB performance for faster data queries.
- Integrated third-party services like payment gateways and handled secure transactions.
- Implemented secure user authentication using JWT and OAuth, improving data security.
- Identified and resolved full-stack bugs to enhance system stability and performance

Projects

FinActive | *React.js, TypeScript, Tailwind CSS*

(Link)

- Developed a responsive and scalable fintech website using React.js, TypeScript, and Tailwind CSS, delivering a seamless experience across devices.
- Implemented reusable components for services, plans, and FAQs, ensuring consistency and reducing development time for future updates.
- Optimized layout and UI patterns with intuitive navigation and clean design to increase user engagement and lead generation.

Nivishka | *React.js, TypeScript, Tailwind CSS, React Router, Framer Motion*

(Link)

- Built a fully responsive, SEO-optimized website using React.js, TypeScript, and Tailwind CSS, ensuring smooth user experience across all devices.
- Developed modular and reusable components for product listings, testimonials, and contact forms, improving code maintainability and scalability.
- Implemented client-friendly UI/UX features like smooth navigation, sticky headers, and responsive design grids to enhance user engagement and retention.

Grabspace CRM | *React JS, TypeScript, React-Bootstrap*

(Link)

- Built a dynamic Lead Management system using React, TypeScript, and TanStack Table with advanced filtering, sorting, pagination, and search functionalities.
- Implemented secure role-based access and protected routes using Context API, enhancing data access control and user-specific dashboard views.
- Integrated Excel import (SheetJS) and OCR-based invoice auto-fill to streamline data entry and improve operational efficiency.

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS, C/C++

Frameworks & Libraries: React, Redux, Node.js, Express.js, NestJS, Tailwind CSS, Bootstrap, Material UI

Databases: MongoDB, MySQL

Backend & APIs: RESTful APIs, JWT Authentication, Validation, MVC Architecture

Dev Tools & Technologies: Git, GitHub, VS Code, Postman, npm

Education

ShriRam College of Engineering & Management

July 2020 – June 2024

Bachelor of Engineering (B.E.) in Computer Science, Honours; GPA: 7.65/10

Banmore, Madhya Pradesh
